PUNE
DATA CENTER (PUN-1)

PUN-1 is located in Hinjewadi, a tech-rich suburb to the southwest of Pune, just 18 km from Pune International Airport in the heart of India's Maharashtra data center belt. The 3,500m² /2 MW carrier-neutral data center operates to the highest standards, with extensive physical security plus a range of third-party accreditations. The facility interconnects with MUM-1 and PUN-1, thus offering the rich network, cloud and service provider ecosystems including multiple on-site carriers, all major clouds, over 200+ ISPs and three major Internet Exchanges that MUM-1 provides.

WHY CHOOSE PUN-1?

> **CONNECTIVITY**
> Diverse inter-connection fiber paths between MUM-1 and PUN-1

> **SCALABILITY**
> Room to grow – phased scaling up to 2 MW

"

A CRITICALLY IMPORTANT ASPECT OF OUR BUSINESS CASE WAS FINDING A PARTNER WHO NOT ONLY MET OUR RENEWABLE ENERGY REQUIREMENTS BUT ALSO UNDERSTOOD WHAT WE WERE TRYING TO DO AND COULD HELP US TO ACHIEVE OUR GOALS. WITH IRON MOUNTAIN, WE FOUND A PARTNER WHO COULD DO ALL THAT — IN WAYS THAT GAVE US A COMPETITIVE ADVANTAGE
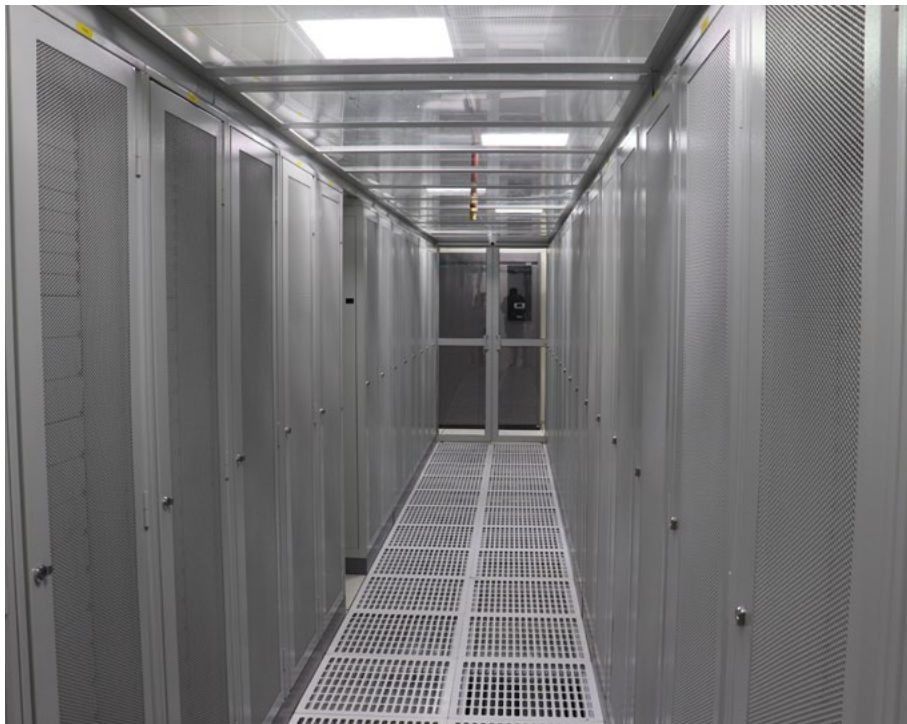

- AKAMAI

Our PUN-1 campus is suitable for all network, content and enterprise customers, with a comprehensive range of secure space options, sector-specific standards, and power configurations.
