## DATA CENTER (AZS-1)

AZS-1 is a 121,000 ft² facility on a 4.5-acre campus, offering Phoenix-area customers a NE suburban location away from the congestion of downtown. The data center has 5.8 MW of 100% renewable power, delivering up to 20 kW per customer cabinet and scalable up to 9.6 MW for future needs. As well as giving in-house access to 16 carriers and cloud connections via Megaport and Packet Fabric, AZS-1 has a 100 Gbit/s dark fiber link to two other Iron Mountain facilities (AZP-1 and AZP-2) to maximize customer connectivity options.

**WHY CHOOSE AZS-1?**

> **CONNECTIVITY**
> Wide selection of carriers and other cloud on-ramps for easy interconnection

> **COMPLIANCE**
> The industry's most comprehensive compliance program.

> **INCENTIVES**
> Reduce data center costs with no Transaction Privilege Tax (TPT) or Use Tax (sales etc.)
"

FROM THE PERSPECTIVE OF OUR OWN STAFF IT'S AS IF THE DATA CENTER WAS ON CAMPUS. BUT THE SUPPORT, DEPENDABILITY, RELIABILITY, AND SECURITY THAT THEY DELIVER IS FAR BETTER THAN WE COULD EVER HAVE AFFORDED OURSELVES.
